

ELEVATED LIVING IN NEW YORK: 180 EAST 88TH STREET

by ÖVRFLÖD TEAM on February 18, 2024

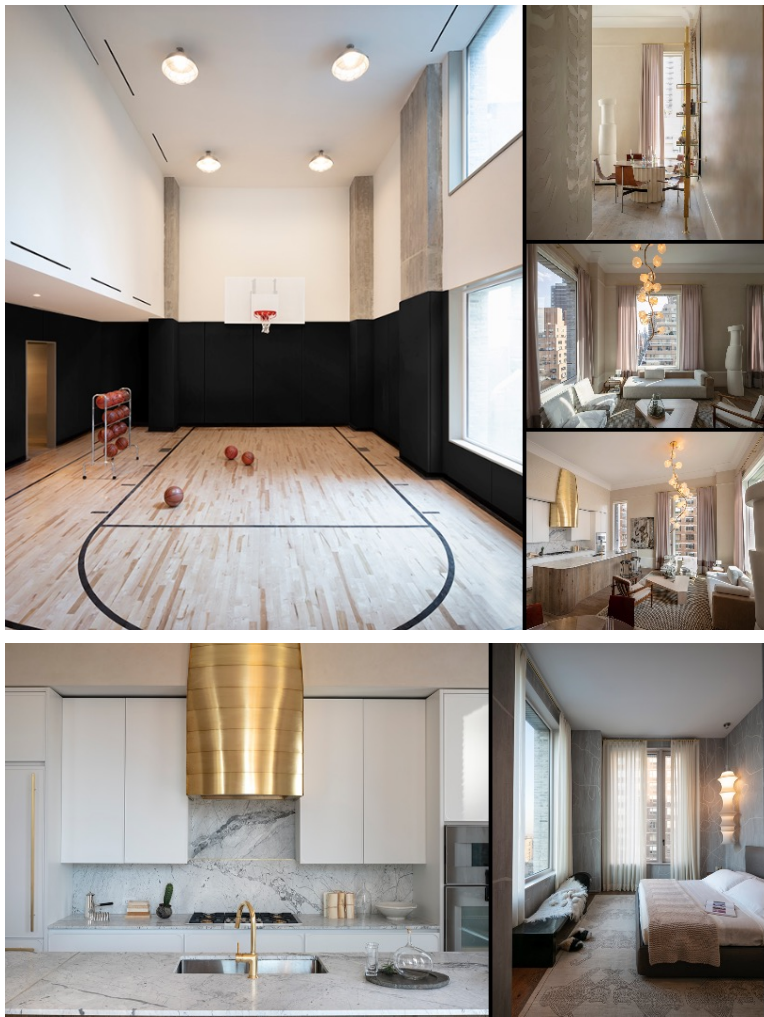

In a testament to unparalleled luxury and architectural prowess, 180 East 88th Street, the soaring residential masterpiece on Manhattan's Upper East Side rises as a leader in luxury residential spaces. Developed by DDG and Global Holdings, this skyline-defining tower stands as a beacon of sophistication and exclusivity.

Designed by Azur and DDG's visionary Founder, Joe McMillan, 180 East 88th Street offers a distinctive residential experience in one of Manhattan's most coveted neighbourhoods. The development's success is evident in its status as one of the Upper East Side's best-selling condo projects this year.

Boasting a range of two-, three-, and five-plus-bedroom homes, the triplex penthouse, famously featured on *Succession*, commanded a remarkable \$25 million. McMillan attributes this triumph to the project's winning combination of high-design residences, full-service condominium amenities, and an attractive price point.

Crafted to deliver lasting value, the tower features design-forward elements such as elliptical entry galleries, custom Italian kitchens, and nine-foot windows providing unobstructed views of the New York City skyline. With the last three-bedroom residence recently sold, limited availability remains, featuring high-floor two-bedroom homes, a sprawling Central Park-facing duplex, and two full-floor four-bedroom residences boasting panoramic views.

Managed by Crista Villella and Michael Gordon of Corcoran Sunshine, the development has captivated discerning buyers with its meticulous craftsmanship, breathtaking views, and a lifestyle where every detail has been thoughtfully considered. Residents enjoy access to eight floors of amenities, including a wine room, indoor sports facilities, a game room, fitness centre, and children's playroom. As a cherry on top, residents receive exclusive benefits at select Upper East Side cultural institutions, making 180 East 88th Street the epitome of elevated living. With only a handful of homes remaining, seize the opportunity to make the jewel of Carnegie Hill your home.
